LEVEL ENTRY CONTAINER RAMP

Chequer plate surface makes the ramp safer in wet conditions.

It's got fork pockets in the side so it's safer for you.

Flat top means you have plenty of room for keeping packages level when coming out of the container.
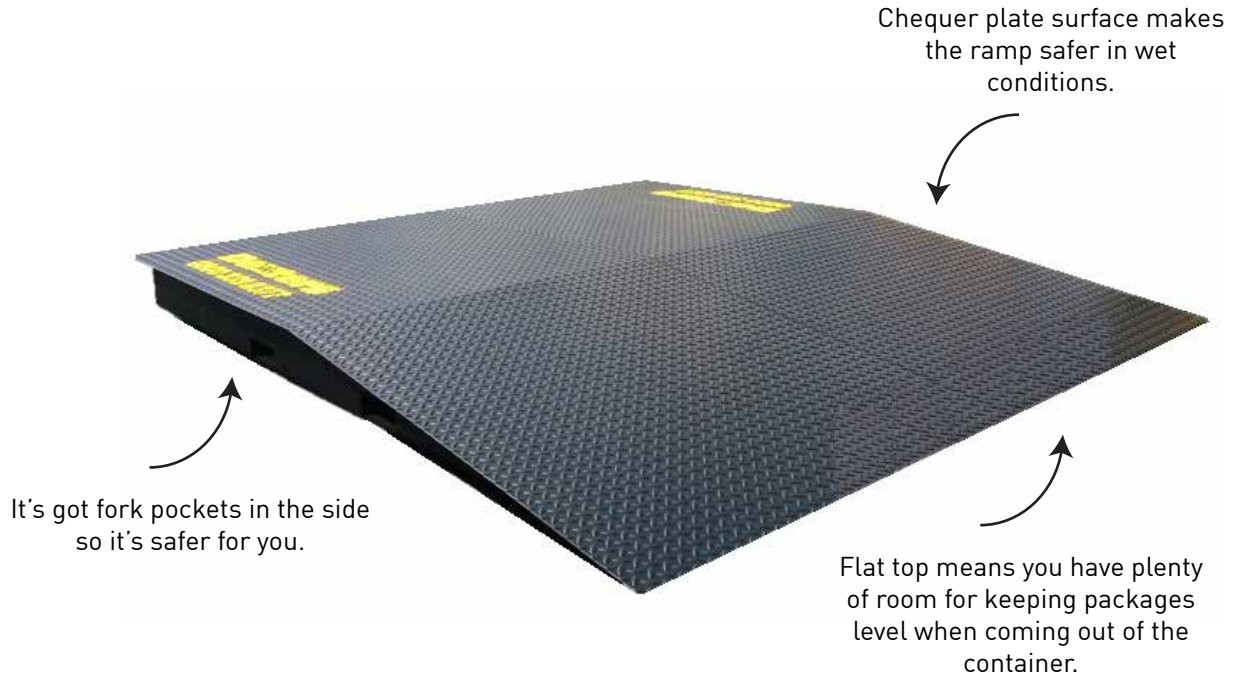

Key Features

- Welded steel construction
- Side entry fork pockets for safe moving around
- 6mm anti-slip chequer plate top
- Black paint finish
- Level entry model good for extra high pallets or where container entry is tight
