- By using this trolley workers save time and thus resulting in quick orders.

### HAND TRUCKS

- Allows staff to transport items that are much heavier than they could carry
- Foldable options available to save space in your warehouse

### CAGE TROLLEY

- Ideal for courier parcels and small items
- These are perfect for loading up with stock at the warehouse to ship out to shops
- Large capacity

## OUR TOP TIPS

### REQUIREMENTS

It's important to know what are your requirements are, to pick rolls of stock, for extra large items etc.

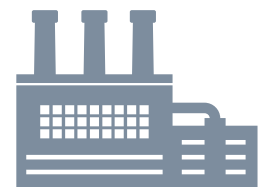

### DESIGN

Know the design IE the size, shape of the trolleys. If you are requiring a trolley for a large space then you should go with some heavy duty trolleys. So design matters a lot. Check for the quality also.

### FUNDING

You have to check whether the funding is matching your requirement. If you choose a high cost trolley then you might not be able to pay the amount for it.

### LOCATION

Know the location where the trolley is going to be placed, based on it you have to get the right trolleys for your warehouse.
